### EDUCATION

#### MECHATRONICS ENGINEERING

UNIVERSIDAD AUTONOMA DEL CARIBE  
2025

#### WEB DESIGN COURSES

Udemy  
2023-2025

### PROFILE

**Frontend Developer** with a strong foundation in **JavaScript**, **TypeScript**, **React**, and modern styling frameworks like **Tailwind CSS**. Skilled in designing and developing dynamic, scalable, and high-performance web applications with a focus on user experience. Passionate about writing clean, maintainable code and integrating **APIs** for seamless data communication. Strong problem-solving abilities, adaptability, and commitment to continuous learning to stay ahead in the evolving tech landscape.

### EXPERIENCE

#### Service Engineer Internship - Controlling S.A.S. 4 Months

- Network normalization and testing of communication equipment.
- Commissioning of devices such as switches, GPS, and meters.
- Modified controllers and monitored network performance.

### PROJECTS

#### Drink recipe finder

[Ver Proyecto](#)

This project was built with React and React Router DOM for seamless multi-page navigation. It leverages the Slice Pattern to manage multiple Zustand stores, ensuring modular and efficient state management for an enhanced user experience.

HTML TailWind TypeScript React API

#### Cryptocurrency Price Tracker

[Ver Proyecto](#)

This price calculator retrieves cryptocurrency prices in different currencies via an API. It uses Zustand for state management and Zod to validate responses, ensuring accurate and consistent data.
